### FARMHOUSE INN

FORESTVILLE, CA | Where do you prefer to be pampered—bedroom or bath? Bath people, consider a restored 1873 Sonoma County farmhouse inn, painstakingly refurbished by a fourth-generation wine-growing family. Eight cottages stand swathed in roses and morning glories, each with its own private spa: redwood sauna, whirlpool tub for two,

lots of bath teas and gels, and oversized towels to cocoon in. As for you bedroom people, each cottage also has a wood-burning fireplace and four-poster feather bed with a hand-sewn duvet and

Egyptian cotton sheets. Once you've settled in, call the concierge to arrange an in-room deep-tissue, reflexology, or aromatherapy massage. There are bike rides, a swimming pool, a lavishly praised restaurant. But who cares? You'd have to leave your room. And that's just not an option.
